A medical insurance plan that covers medical expenses arising from stem cell transplant, exclusively for CordLife parents.

A medical insurance specially designed for the coverage of your children's medical expenses arising from a stem cell transplant, brought to you exclusively by CordLife and NTUC Income.

First of its kind in Singapore

Now, parents can have the additional peace of mind when you store your baby's cord blood with CordLife. Together with NTUC Income, MediCord Plan is created to ease parents' financial burden in an unfortunate event that the child is sick with an illness, and requires a stem cell transplant. MediCord Plan is a policy that covers hospital, surgical and transplant expenses arising from a stem cell transplant using your child's stored cord blood.

This policy is the first of its kind in Singapore.

Covers more than 70 types of illnesses

Cord blood stem cells have been used in the treatment of more than 70 types of illnesses. MediCord Plan covers against any of these illnesses should the child be diagnosed and a stem cell transplant using the stored cord blood is needed.

Free Coverage for Siblings

Cord blood stem cells are considered "young" cells that replace diseased cells with healthy stem cells in a transplant. The chance of a stem cell match found within the family is higher than that of an unrelated donor. The policy is designed to extend coverage to the child's siblings as well*, at no additional cost to you.

* Sibling transplant subjected to approval from Ministry of Health, Singapore.

Affordable Premium

For a sum assured of \$100,000, you only pay an annual premium of \$100 or \$0.27 per day!
